

SOLAR ENERGY

The clean and reliable way to source energy for your business

Solar energy can help your business reduce electricity costs, meet sustainability goals and showcase environmental leadership. While making a decision to install solar can be a smart decision, it isn't a simple one. As part of the NextEra Energy family of companies, the largest producer of solar and wind energy in the world, Premier Power Solutions brings world class expertise in solar economics, regulatory, operations and technology. Premier Power Solutions is your trusted advisor throughout the process — identifying and evaluating solar vendors, negotiating agreements and overseeing construction.

Our services

Strategy Consulting

We work with you to understand your objectives, and help determine if solar makes sense as part of your energy strategy.

Feasibility Assessment

We assess the feasibility of each option available and provide recommendations.

Vendor Selection

We'll review and select installers based on your project specifications.

Site Evaluation

A full evaluation will be conducted to determine optimal solar panel placement.

Analysis & Reporting

We'll analyze the project economics and energy impact, and provide you reports and projections.

Construction & Design

In conjunction with the selected vendor, we'll work with you on the design, layout and materials/equipment used.

Let's get started

Call us today to schedule a no-cost consultation to review your specific circumstances and whether solar is right for you. If solar makes sense, we'll conduct a Request for Proposal with pre-qualified solar developers.

Why choose us

- ▶ Decades of experience developing and executing multi-faceted energy strategies
- ▶ Rigorous qualification criteria for vendors
- ▶ Sophisticated data analytics
- ▶ Backed by the resources and expertise of NextEra Energy Resources, the world's largest generator of renewable energy from wind and sun
